

Weather Proof LCD TV

Weather proof LCD is assured of staying high and dry with its black steel frame and tamper-resistant glass. But aside from the wonder you get from getting a weatherproof TV

All-weather exterior protects internal components from rain ,dirt, insects and scratches

Dual airflow system keeps unit cool and dry in temperatures up to 50.C.

Internal thermostatical-controlled heater protects TV in temperatures as low as - 20.C.

Innovative watertight cable entry system with passthrough design keeps cables dry and allows for easy hook-ups.

Weatherproof LCD is lined up from 32" WXGA upto 70" full HD as wall mount type and floor stand type.

Weatherproof LCD TV has floor stand type and wall mount type.

All inputs and design can be adjusted by customer's request within Weatherproof Function availability.
